Brewed Awakenings Coffeehouse

Brewed Awakenings Coffeehouse opened in a cooperative
grocery store in downtown Grand Rapids in 1996. Cooking veg-
etarian soups for the patrons of the cooperative, we soon had a following of
adventurous connoisseurs who gave us the license to create something
new everyday by coming to eat a once-in-a-life-time combination of
wholesome veggies, grains, beans, and spices all gathered together in
the name of 'soup'. One dear customer commented, "It's like going home
for lunch. If you're hungry, you eat what's on the table." Joan now has 65
original vegetarian soup recipes named and written down, so eating here
does not have to be such an act of faith anymore.

**Our mission is to be a café where you can eat
everyday and be healthy.**

With the belief that the way we do business will strengthen our community
and even farther reaching ecosystems, we strive to provide you with a
cuisine prepared whenever possible with the finest organic ingredients
that are purchased and grown locally.
